Shahram Sedghi-Ilkhanlar

Professor in Librarianship and Information Studies
Member of the Academy of Medical Sciences of Iran

No 6 Rashid Yasemi St, Valie Asr Ave, Vanak Sq
1996713883 | sedghi.s@iums.ac.ir, shahramsedghi@gmail.com
Mobile: 0098-9127261334|Phone: 0098-21-44351398
Academic profiles: Google Scholar| LinkedIn | ResearchGate | ORCID| Semantic Scholar

EDUCATION

- Ph.D. of Information Studies   Obtained: June 2009
  Information School, the University of Sheffield
  Minor: Information Retrieval and Relevance Judgment
  - Modules included: Qualitative Research Methods, Quantitative Research Methods, Information Retrieval, Information Systems, Research Methods, Biostatistics.
  - Enhanced skills at using EndNote reference management software, MS Office packages, Health and biomedical databases and platforms, doing qualitative and quantitative data collection and analysis, using software such as NVivo, Atlas-ti, SPSS, Excel, Pajek
  - Experience of teaching and holding workshops
  - Wrote and published three articles based on thesis research in peer-reviewed journals

- M.Sc. in Librarianship and Medical Information Sciences,   Obtained: October 2001
  Department of Medical library and Information Sciences,
  Iran University of Medical Sciences,
  Minor: Medical
  GPA: 15.9 out of 20
  - Familiarisation with development of budgeting and resources management
  - Strategic and operational planning of academic libraries

- B.Sc. in Librarianship and Medical Information Sciences   Obtained: March 1999
  Department of Medical library and Information Sciences,
  Iran University of Medical Sciences
  Minor: Medical
  GPA: 15.25 out of 20
  - Familiarisation with the structure, staff, and environment of medical libraries
  - medical terminology, resource management, cataloguing,
  - Abstracting and indexing
  - library softwares through the in-field traineeship modules

WORK EXPERIENCE AND PROFESSIONAL SERVICES

Current work experience and services

- Faculty Member, Department of Medical library and Information Sciences, School of Health Management and Information Sciences, Iran University of Medical Sciences, 2009 – present.
  - Taught 3-4 courses per semester
  - Running 6-7 workshops on information retrieval and scholar databases per semester
  - Contribute to multi-disciplinary research project aimed at developing products and services including information systems, developing search strategies, and systematic reviews
  - Collaborate and coordinate with faculty, staff scientists, and fellow graduate students across departments
  - Mentor students completing research into topics
  - Assess students' progress by grading assignments, papers and exams
  - Develop teaching materials for information skills workshops for healthcare professionals

Past work experience and services

- Dean of the Libraries and Information Services, Iran University of Medical Sciences, 2020- 2023
- Deputy Dean for Research, School of Health Management and Information Sciences, Iran University of Medical Sciences, 20017 – 2019.
- Deputy Dean for Education, School of Health Management and Information Sciences, Iran University of Medical Sciences, 2009 – 2011.
- Teaching Assistant, Teaching Assistant Information School, Information Retrieval Research Group, The University of Sheffield, UK, 2007-2009
- Faculty Librarian and Faculty member, Tabriz University of Medical Science, 2002-2005
- Librarian (Part time), UNESCO Office in Tehran, 2000-2002
- Reference Librarian Assistant (Part time), School of Nursing, Iran University of Medical Sciences, 1997-1999

LANGUAGES

- English: Speaking, Reading, and Writing: Fluent/Professional
- Persian: Fluent/Native
- Azerbaijani: Fluent/Native
- Turkish: Speaking: Bilingual, Reading: Bilingual, Writing: Bilingual

SKILLS

- MS Office package, Adobe Connect, Camtasia, Pajek, Gephi, VOS Viewer, Library softwares, Jira, SPSS, NVivo, MAXQDA, Atlas-ti, EndNote, BigBlueButton
- Analytical Skills, Budget Management, Team Leadership, Time Management, Data Analysis, Information Literacy, Information Management, Information Retrieval, Interdisciplinary Research, Data Visualization, Diversity & Inclusion, Evidence-based Medicine, Information and Communications Technology (ICT), Information Ethics, Information Governance, Interpersonal Skills, Lecturing, Mentoring, Project Management, Qualitative & Quantitative Research Methodologies, Scholar databases, Systematic Reviews, Teaching,

TEACHING RELATED EXPERIENCE

Modules

Title	Date
Field training	2010-
Information Storage and Retrieval	2010-
Online Searching and Scholar Databases	2010-
Communication and Information Theories	2014-
Advanced Research Methods	2016-
Libraries and Information Centers Planning and Management	2010-

Reference and Information Services	2010-
Information systems	2010-
Research Seminars	2010-
Information Behaviour	2010-
Knowledge Management	2010-
Information and Society	2014-
Management Information Systems	2017-
Information literacy and Skills	2010-
Research Methods (preliminary and advanced)	2016-
Qualitative data analysis	2012-

WORKSHOPS

Scholar databases	2010-
Research protocol development	2011-
EndNote	2011-
Effective qualitative research interviews	2016-

Scientometrics, Webometrics and Altmetrics	2013-
Information literacy and skills	2010-
Digital Scholarship	2012-
Writing and publishing original and review papers	2011-
MAXQDA	2017-
NVivo	2015-

RESEARCH SKILLS

- Qualitative studies: Qualitative research is one of my favorite areas, in which I have had different roles such as problem development, research design, data collection including interviews, focus group discussion, observation, data analysis using software such as NVivo, MAXQDA, and development of report and publication. Grounded theory, Content Analysis, and case study are types of qualitative studies I have been involved.

- Quantitative studies: Survey based studies, and secondary data analysis, including correlation, regression analysis and data mapping and visualizing are among my expertise, assisted by software such as SPSS, Pajek, Gephi, VOS Viewer and Excel.

  Reviews: A significant part of my research expertise has been related to different types of reviews including Scoping and systematic reviews, both at leading and conducting levels. I have done both types of quantitative (meta-analysis) and qualitative (narrative and thematic) analysis within reviews. I have been involved with all stages of systematic reviews including question development, search strategy development, identification of studies in different databases, screening, quality assessment, data extraction, data preparation, and data analysis using software such as SPSS, and development of report and publication.

SUPERVISION OF COMPLETED PHD STUDENTS' DISSERTATIONS

- 2023 The Cost-effectiveness of Health Literacy intervention in patients with type 2 diabetes
- 2023 Information Supply System for Supporting Patient Education in Iran
- 2022 Developing a Model to Improve the Quality of the Iranian Biomedical Scientific Journals
- 2022 Developing an Information System for Medical Grey Literature in Iran: A Conceptual Model
- 2022 Developing a Recommender System for Reviewing Scholar Journals
- 2022 Foresight of the research performance evaluation by scenario method

- 2021 Developing a conceptual framework of web-based decision aid for Pregnancy screening in Iran
- 2021 Developing a Model for Research Impact Improvement in Iran
- 2020 Proposing a Model for Information Prescription System in Iran: A case study of type 2 diabetes
- 2020 Developing Type 2 Diabetes Gamification and Determination of its Effectiveness on Health Literacy of High School Students in Tehran
- 2020 Exploring the Role of Social Media to Facilitate Health Knowledge Sharing among Iranian Physicians
- 2015 A Conceptual Model of Centralized Death Data Registration System (DRS) for Iran
